- **Tuberculosis**
- **STDs**
- **HIV / AIDS**

COUNTY OF ORANGE, CA • HEALTH CARE AGENCY
DISEASE CONTROL

HCA Pulmonary Disease Services Information

The Orange County Health Care Agency provides case management for all persons suspected/diagnosed with active tuberculosis and for their close contacts. Medical care is provided for patients not under private provider care. The goal of the agency is to control the spread of TB through testing, diagnosis, treatment and prevention.

Tuberculosis Treatment Sites

Pulmonary Disease Clinic
1725 West 17th Street, Rm. 101E
Santa Ana
(714) 834-8717

and

West Clinic
14120 Beach Blvd., #104
Westminster
(714) 896-7390

Treatment for Active Tuberculosis

Services include diagnosis and treatment of persons with active TB, contact screening and investigations, prophylaxis of persons with TB infection and all of the following:

Medical Services

- History and physical exams
- Mantoux TB skin testing daily except Thursdays. Return visits required to read results within 48-72 hours. (Holiday scheduling may vary.)
- Chest X-rays and radiology reports
- Sputum cultures, laboratory analysis, induced sputum collection and gastrics
- Tuberculosis medications
- INH Prophylaxis (Isoniazid) for close contacts and persons with latent TB infection (LTBI)
- Direct Observed Therapy (DOT) to ensure adherence to prescribed medications
- Case Management

**TB Prevention and Skin Testing Clinic
Room 101N**

Staff in this specialized clinic provide TB skin tests and screen for latent TB infection. Persons with latent TB infection receive medication to destroy any TB germs they may have. This helps patients remain healthy and reduces their risk of later developing active TB which could be spread to the community.

Social Services

Social Workers and experienced bilingual/bicultural Community Health Workers provide clients with support and counseling. Referrals are made to appropriate community resources for both individuals and families.

Financial Eligibility for TB Patients

All persons will be provided TB care. Medi-Cal eligibility will be determined. There is no charge for those without other insurance.

Community TB Education

Health education staff assist providers, clients and community members to understand tuberculosis treatment and prevention. They participate with school and worksite contact investigations, and provide individual and group education. Presentations and pamphlets are available in various languages.
